TESTIMONIALS

“ Sylmar are very knowledgeable about the products they supply, they have a good distribution network and a large amount of sales and support staff.

The Avonite Glass range was chosen for its unique translucent properties that are not available with other materials. The architect wanted to highlight areas of the restaurant with indirect lighting, so the Avonite acted as a great diffuser of light. We manufactured the front and back bar top, a three-metre wide paneled wall and a reception counter top.

We offer Sylmar products to our customers as a top end unique solid surface product, and will continue to offer it. ”

Mark Robinson from Solid Surfaces North West chose Avonite for San Carlo, an award-winning Italian restaurant in Leeds

“ My experience of dealing with Sylmar was very good. Our sales representative, Scott, was very helpful and when we asked for larger samples we got them without any problem.

I loved the product and had wanted to use it for a long time. The client was happy with it as they wanted something that was a bit unusual - the translucent colour was fantastic, like raspberry jelly before the water is put in.

I'd definitely use Avonite again in future projects. ”

Brod Whitehead, from Ambassador Interiors, specified Avonite for McTaggart's bar and restaurant in Ashill, Norfolk
